UXDI45 + WDI48 COLLAB-ATHON SCHEDULE

OBJECTIVE
Learn how to be empathetic, respectful and productive collaborators.

GUIDELINES
- Project planning is your best friend
- Converge and communicate / Divide and conquer
- Prioritize
- No slide decks!

DAY ONE

9:30 - 11:30 Cross-lectures

11:30 - 12:30 Collaborate
- Get into teams
    - 3 groups with 2 designers and 1 developer
    - 8 groups of 3 designers and 1 developer
- Discuss and digest the user stories
- Collaborate (UXDI+WDI) to sketch, share design ideas, and discuss technical feasibility
    - A good deliverable for this might be a user flow
- Agree as a team on the MVP

12:30 - 1:30 Lunch (on your own)

1:30 - 2:30 Design / Infrastructure
- UXDI: Draft digital wireframes and clickable prototype
- WDI: Set up environment and back-end

2:30 - 3:00 Design/Dev Review
- Teams come together to review and provide feedback on work done thus far

3:00 - 4:00 Design / Infrastructure
- UXDI incorporates WDI feedback into a new iteration of wires/prototype
- WDI incorporates UXDI feedback into new iteration of environment
- UXDI starts to annotate / WDI can contribute to annotations
    - Goal: UXDI has completed Layout (with annotations) by 9:30 a.m. Tuesday

4:30 - 5:00 Wrap up

UXDI45 + WDI48 COLLAB-ATHON SCHEDULE

DAY TWO

9:30 - 10:15 Layout: Handoff & Plan
- UXDI does a warm handoff of the final layout (with annotations) to WDI
- Collaborative project planning

10:15 - 11:30 Layout implementation / Content design
- WDI: Implement layout
- UXDI: Plan and write content (text, images, icons, photos)

11:30 - 12:30 Content: Handoff & implementation / Functionality & visual design
- UXDI does a warm handoff of the final content to WDI
- WDI: Implement content
- UXDI: Design functionality and visuals (annotated)

12:30 - 1:30 Lunch (provided by GA in the Concourse)

1:30 - 2:30 Functionality & Visuals: Handoff & implementation / Review + QA
- UXDI does a warm handoff of the final functionality and visual design (annotated) to WDI
- WDI: Implement functionality and visual design
- UXDI: Pair on implementation w/WDI; review work done thus far, iterate as needed

2:30 - 3:00 Prepare presentations (NO SLIDES)

3:00 - 5:00 Each team gives a ~8 minute informal presentation (in the Concourse)
- What key decisions did you make
- Walk us through what you built (demo). Does it work?
- What are your next steps?
- What did you learn?
- What went notably well?
- What was a challenge and how did you handle it?
- What would you do differently next time?
